

Audio Dynamix

Complete Sound Systems & Audio Accessories

**NEW FOR
2014!**

www.audiodynamix.com

Just Plug and Play!!!

Expect More.

At Audio Dynamix, Inc. we understand that high quality sound, durability, ease of use, and service levels beyond your expectations shouldn't be beyond your budget. That's why we developed complete system packages that exceed the expectations of both novices and audio professionals at a price similar to what you would have to pay for a piecemeal system. We've done all the work for you - just PLUG AND PLAY. Each system comes to you completely pre-wired and ready to operate. Just roll the system out, plug in the AC cable, and you are ready for that special event, promotion, meeting or concert within a few minutes!

The Details.

We've paid special attention to the details that music stores and other sound system companies have not addressed: color-coded components that correspond to the mounted instruction panel on the door, locking wheels and locking cabinet doors with clearance for the cables for maximum security and safety during an event or while in storage, and all hardware is rust proof. Microphone holders, stand pockets, storage compartments, and many other unique features come standard with each sound system.

All the Upgrades.

Each complete system comes loaded with special features and upgrades such as iPod Docking Stations with charger and remote control, a programmable CD/DVD/MP3 Player with USB Port, iPod/MP3 and computer adaptor jacks, player, Premium Wireless Microphone System, Limiter/Compressor for blowout protection, individual volume and tone controls, and more!

Expandability.

Each Audio Dynamix system is designed so that you are easily able to add extra speakers, monitors, microphones, or components such as karaoke, pitch control, and other audio component upgrades to the existing package at the time of your order or after years of use. With over 35 years of audio experience, our staff is prepared to engineer and customize a system to handle almost any special requests you may have from teleconferencing capabilities to major theatrical productions.

Trouble-Free Quality.

Audio Dynamix's total commitment to quality and service is achieved by continually working with our suppliers, employees, packaging, and transportation experts. To assure you of this level of commitment, each sound system manufactured by Audio Dynamix comes with a hassle-free Three Year Warranty against defects in materials and workmanship and a One Year Money Back Guarantee if you are not completely satisfied with your purchase.

Shure SBC-USB-MicroB USB Wall Charger

Shure Countryman WCE6 Earset Microphone

Practically invisible to live or broadcast audiences, the WCE6 is incredibly comfortable. Available in multiple skin tones and coverage patterns, it captures the closest source clearly with excellent rejection of wind, ambient noise, and feedback. In addition, the snap-on cable makes your WCE6 compatible with all Shure wireless microphone systems. Now Available in more color options including black, tan, light tan and cocoa.

Microphones, Cables, Stands and Accessories.

Don't get caught without the right mic for the right application! Accessorize! We offer a huge assortment of microphones and accessories to fit any need, whether it's the "old standby" speech microphone with cable, or specialty microphones for theater and choral applications. Just ask the professionals at Audio Dynamix!

Shure SM58 Vocal Microphone

Legendary Shure SM58 vocal microphone, tuned to accentuate the warmth and clarity of lead and back-up vocals. Consistently the first choice of performers everywhere. Cardioid, Dynamic.

Shure SM57 Instrument Microphone

Multi-purpose Shure microphone with contoured frequency response for clean sound reproduction of amplified or acoustic instruments. Cardioid, Dynamic.

Shure SM86 Vocal Microphone

A rugged condenser microphone that features a tailored frequency response for clear reproduction of vocals. Built-in three-point shock mount and two-stage pop filter. Cardioid, Condenser.

Shure SM87A Vocal Microphone

A sensitive condenser vocal microphone that features a smooth, tailored response for a warm, accurate sound. Supercardioid, Condenser.

Shure SM48 Vocal Microphone

A great performance microphone for lead vocals, backup vocals, and spoken word applications. Cardioid, Dynamic.

Shure SM63 Handheld Microphone

Compact, lightweight, durable microphone with a professional sound and appearance. Patented mechanical isolation system for low handling noise. Omnidirectional, Dynamic.

Shure SM81 Instrument Microphone

One of the world's greatest studio condenser mics, the SM81 is a flat response mic with a selectable, low-frequency response switch -- flat, 6dB/octave roll-off or 18dB/octave roll-off -- and a 10dB attenuator. Cardioid, Condenser.

A Shure MX202 Overhead Theater/Choir/Band Microphone with 30' cable: All brands and models available in black or white. Nearly invisible, ideal for theater and choir use! Hang above stage or place on a mic stand for choirs. Great for sound reinforcement or recording. Accepts phantom power.

B

B Microphone Stand: Adjustable tripod or round base with or without boom arm. Unfolds and sets up quickly and easily.

C

C Tabletop/Desktop Microphone Stand: (Shown with mic- not included) Fits any size and style of microphone. Great for conference and board meetings. All styles available. Also ask your systems consultant about all-in-one mic and stand with mute button.

D

D Microphone Cables: Available in an assortment of colors including red, green, yellow, purple, black, blue, or orange in 25', 50', or any custom size.

Snake in a Reel on Wheels:

The ultimate in ease of use and simplicity! No more fumbling with tangled microphone cables. Easy to set up, easy to store. All channels and cable lengths available with or without reel.
